**Look Who's Dipping Their  
Hands in Your Cookie Jar -  
Preventing Fraud in  
Your Business**

Logan Katz LLP is pleased  
to present

*Brenda Valente, C.A.*

*and*

*Brigitte Bonneville, C.A.*

Fraud, when it happens, can be an expensive drain on your business' financial resources and is not a situation that business owners like to find themselves in. By not taking a proactive approach to identifying and managing the risks of fraud, you could find yourself out of business almost overnight. Yet despite this, many businesses still do not have procedures in place to prevent, detect and respond to fraud when it happens. While no system is completely fool-proof, Brigitte and Brenda will share with you some steps which you can take to deter fraud and make it much less attractive to commit within your business. And if you're thinking "it could never happen here", Denis Chainé, C.A. and David Logan, C.A. will share with you some real-life situations where fraud did happen and what could have been done to prevent it.
