

MANDATORY ELECTRONIC FILING

The 2012 federal budget legislation (Bill C-38) has instituted a mandatory electronic filing requirement that will require tax preparers engaged to prepare more than 10 income tax returns annually to electronically file them, as of January 1, 2013, effective for 2012 personal income tax returns and going forward.

As a result of this new legislation, Logan Katz LLP will be electronically filing all qualifying personal tax returns.
